- **Blue Saber**

A 10.5 oz. vinyl coated polyester

HOW TO SIZE A BIMINI TOP FOR YOUR BOAT

To select a bimini top for your boat you will need to know the length, height and width of top your boat requires.

- First determine what portion of your boat you want the top to cover. The tops come in 5'6", 6', and 8' lengths.
- Next, determine where you want the top mounted. Measure the width between these two points to determine the width of your top. The top comes standard with universal mounting brackets to mount your top on almost any surface.
- Then, stand inside your boat and measure the distance in height from the mounting points to the height you desire. This will help you determine how high your top needs to be.
- Find the bimini top that best fits your requirements.

TACO Accessory-Ready™ Anodized Aluminum T-Top

This T-top assembles and installs without welding. The Neptune T-top's pre-welded components are engineered to offer the same strength and durability as factory-installed tops. Its modular design allows for overall width and depth adjustments as needed to fit a boat's console up to 41".

The top's outer ring features TACO's Accessory Ready adapters for easy installation & adjustment of rod holders and accessories. With this unique technology, the angle and positioning of rod holders and other accessories can be adjusted with a standard Allen wrench. All T-tops come standard with TACO's patented Outrigger Ready plates allowing for easy installation of TACO's Grand Slam Outrigger Mounts.

***Select Color Code:**

Add a color code part number to end of part number to order correct top and boot.

Blue acrylic = BL, Gray acrylic = GY, Green acrylic = GN, Burgundy = BG
Example: ATT 341GY= 61"-67" top color gray

Frames and Fabric tops are sold separately.

How to measure your boat width for sizing an Attwood Bimini:

Measure the distance between the mounting point on one side of the boat to the same location on the opposite side of boat. Then select the proper frame and top from the chart above.

Specialty Boat Covers For Boats With Hard Tops and T-Tops

Poly-Guard. Solution Dyed 600 Denier. Color: Haze Gray. Specially Designed for Walk Around Cuddy Boats with Hard Tops and Center Console Boats with T-Tops

Gullsweep® The Gullsweep keeps gulls off your boat by continually sweeping the area where they usually land. The Gullsweep is made of materials that are very resistant to the effects of salt water. The arms are bright anodized aluminum. All other metal parts are stainless steel. The Gullsweep will rotate in the slightest breeze. The Gullsweep is easily mounted on a hard or soft top. On a soft top the method of mounting will not cause a leak. When not in use, it folds for convenient storage. Best of all, it really does a fine job at keeping your boat free from gulls.

CARVER STYLED-TO-FIT BOAT COVERS

Poly Guard Boat Covers

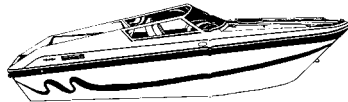

8 oz. 600 denier solution dyed polyester. Color: Haze Grey. Strong and durable 600 x 600 denier solution dyed polyester is our best Poly Guard yet! Fabric produced with solution dyed yarn means, simply, that the fiber is dyed when in liquid form, before the lard is extruded. The color actually becomes inherent to the fiber. This is particularly beneficial for products that are used in intense sunlight and harsh weather conditions because the fabric is extremely strong and durable, and highly resistant to fading. Highly water repellent, highly mildew and UV resistant, excellent resistance to tearing. Won't scratch or shrink. Suitable for trailering when properly tied down. 5-year warranty.

Snug Harbor Universal Fit Trailable Boat Covers

Snug Harbor Covers Silver Series are designed to keep wind out from under the cover. Tie-down loops above the gunwale and an adjustable elastic cord that runs the full length of the hem. These two features combine to keep the cover down while driving and allow the elastic hem to be pulled tight at the bow to provide a snug fit against tapered hulls.

- 150 denier polyester
- 100% polyester construction that is strong, colorfast and waterproof
- 1/2" poly webbing sewn across each seam provides added strength to withstand wind velocity and provide a stronger attachment point for gunwale tie-down loops
- Each cover comes in a zip-up bag with clear see-thru front, bottom and back

Adjustable Bimini Support Poles

Keep your Bimini BoaTop® off the gunwales with a pair of bimini support poles. Use these poles to replace your rear straps and keep your top "up and out of the way." Two jaw slides (7/8") are included.

ORDER NO.	DESCRIPTION	PRICE
TAY 11995	Adjustable Bimini Support Pole 28" to 48"	\$74.95

Fixed Length Bimini Top Support Pole

Safely secure you Bimini BoaTop® out of the way, or build your own "poor man's radar arch" with a pair of our fixed length support poles. Two 40" length tubes of 7/8" aluminum with two horizontal deck hinges and two jaw slides are included. Simply cut the tubes to the desired length to position Bimini.

ORDER NO.	DESCRIPTION	PRICE
TAY 11989	Fixed Bimini Support Pole	\$48.65

CAUTION: These poles should never be used to replace the front support straps. Only the rear straps should be replaced with adjustable support poles. Do not exceed 35 miles per hour while using adjustable Bimini top support poles.

ALUMINUM BIMINI TOP BRACES

Designed to hold your top up and out of the way when top is folded and not in use. Each package includes two 7/8" tubes which can be cut to desired lengths, 4 eye ends, 2 jaw slides, 2 deck hinges and all screws necessary for mounting. One pair per package.

CAR 62014	36" - 48" Adjustable	\$67.82

Support Pole w/Vent

Support and ventilate your boat cover with one product. Prevent standing water from damaging your boat cover while helping your cover to "breathe". The support pole adjusts from 40" to 70" allowing you to choose the appropriate height and the best place for installation on your boat. Easy instructions to attach the vent to your boat cover are included.

ORDER NO.	PRICE

Boat Cover Support System

The easiest most cost-effective way to extend the life of your boat cover. Eliminates virtually all possible areas that could collect water and allow it to pool, causing damage to the cover. This system is designed for simplicity with two pre-installed, adjustable 20-foot straps that snap quickly to the rear tow hooks and one 40-foot adjustable strap to cradle the bow. System fits up to 28-foot boats. For pontoon boats, two systems can be easily joined to create a perfect "frame" for the boat cover. Each system comes with one adjustable (40" to 70") support pole, system center, strap set and simple installation instructions.

Cover Support Pole

The new 3 in 1 Cover Support Pole from Garelick combines the features and benefits of three products in one. The Polished Aluminum tube telescopes from 30"-60". A locking collar enables the pole to be adjusted to the correct height, eliminating canvas pockets that trap water. Furthermore, three tips are included – Rubber, Grommet, and Snap Style – to accommodate all applications.
