5101 Centennial™ VHF antenna

8' length 6 dB end-fed with matching stub.

A new standard of excellence in an economical antenna! Shakespeare brings you the best of the high-end features in an 8' antenna with a brass element and a smooth, high gloss, polyurethane finish that won't turn yellow in the sun. This antenna delivers not only performance, but superb value. One section. Brass and copper elements.

- Chrome-plated brass ferrule w/ standard 1"-#14 thread
- Includes 15' RG-58 cable and a PL-259 connector

No. SHA 5101

our price
\$49⁹⁹

BETTER

5400-XT Little Giant™ VHF Antenna

4' 3dB gain. Center-fed 1/2 wave coaxial sleeve.

An outstanding, general purpose 4' antenna of heavy-duty construction for general purpose communications. It's at home on T-tops, Hard-tops and other positions aloft, where its small size can deliver maximum range.

- Brass and copper elements to maximum range
- Stainless steel ferrule with standard 1"-14 thread
- Includes 20' RG-8/X cable and a PL-259 connector

Maximum Power Input: 50 watts

SWR: Less than 1.5:1 at 156.8 MHz

Bandwidth: 5 MHz within 2.0:1 VSWR

Frequency: VHF Marine Band

FISHFINDER-ELECTRONICS

GARMIN. Echo™ 150

our price
\$109⁹⁹

With dual-beam technology at a single-beam price, echo 150 is the sport fisherman's dream. With 200 watts (RMS) power, you can accurately scan to depths of 1,300 ft in fresh water. In shallower water, a viewing angle of up to 120 degrees lets you see fish well beyond the sides of your boat. And to take even more guesswork out of the equation, Garmin's exclusive HD-ID target tracking technology provides you with better separation and definition of images on a crisp 4 in grayscale display.

The included quick-release tilt mount and versatile transom-mount transducer make installation a snap. Plus, echo 150's compact design will keep it out of your way all day long – even on smaller craft.

No. GMN 0100095100

GARMIN. Echo™ 300 Color

our price
\$229⁹⁹

Echo 300c is designed to make catching fish a cinch. It's just that simple. The system's 3.5 in sunlight-readable display and exclusive Garmin HD-ID™ target tracking technology let you see through the water like never before. Plus, a 300-watt (RMS) sounder offers a viewing angle of up to 120 degrees and bottom detail to 1,500 ft.

For an uninterrupted view of the sonar image, echo 300c also boasts Garmin Smooth Scaling™ technology, which means you won't lose sight of the sonar history as the unit changes depth ranges.

Features:

- Garmin HD-ID™ technology
- 300 watts (RMS) transmit power
- Depths to 1,500 ft
- Beam width to 120 degrees
- 3.5 in sunlight-readable color display
- Tilt/swivel mount, transducer, trolling motor clamp and transom mount

No. GMN 0100095200

GARMIN. Echo™ 500 Color

our price
\$349⁹⁹

When bragging rights are on the line, this is the technology to turn to. echo 500c scans the waters with 500 watts RMS power and extra-sensitive Garmin HD-ID™ target tracking technology. Then it displays what it sees on a 5 in QVGA display. A dual-beam transducer optimizes performance for deep or shallow water, offering wide-angle (up to 120 degree) coverage to target fish beyond the sides of your boat and the ability to scan bottom profiles down to 1,900 ft.

For an uninterrupted view of the sonar image, echo 500c boasts Garmin Smooth Scaling™ technology, which means you won't lose sight of the sonar history as the unit changes depth ranges. It also features the ability to rewind your sonar history in order to ensure that you haven't missed a thing

Echo 500c features:

- Garmin HD-ID™ technology
- 500 watts (RMS) transmit power
- Depths to 1,900 ft
- Beam width to 120 degrees
- 5 in sunlight-readable QVGA color display
- Tilt/swivel mount, transducer, trolling motor clamp and transom mount

No. GMN 0100095400

GARMIN. GPS 152H Trackplotter

The GPS 152H features a high-sensitivity GPS receiver, an internal GPS antenna and a built-in BNC connector for an optional external antenna connection to ensure that you acquire satellite signals quickly, regardless of your position. It can also receive position corrections from the Wide Area Augmentation System (WAAS), which makes its already-accurate positioning data even more reliable. When you turn on WAAS, you can increase the accuracy position reporting to within 3 meters. Also added is a NMEA 0183 output so you can send position data to another electronic device on your boat.

Unit dimensions, WxHxD: 5.3" x 4.9" x 2.4"

GARMIN. GPSMAP/ Sounder 441S

The GPSMAP 441S is a compact chartplotter that features an ultra-bright 4" QVGA color display along with an improved high-speed digital design for increased map drawing and panning speeds. It's ready to go with an easy-to-use interface and a built-in, satellite-enhanced basemap preloaded with all U.S. coastal areas, including Alaska and Hawaii as well as detailed charts for Bermuda. The GPSMAP 441S also accepts BlueChart® g2 Vision cards for added features and functionality such as high-resolution satellite imagery, 3D views and Auto Guidance technology.

The GPSMAP 441s, comes with a powerful dual-frequency transducer that clearly illustrates depth contours, fish targets and structure whether you're fishing in freshwater or off the coast. The GPSMAP 441s is also NMEA 2000-certified for easy connectivity with sensors, instruments and future marine offerings.

SPECIFICATIONS

Unit dimensions: 5.7" x 5.0" x 2.7" (14.5 x 12.7 x 6.9 cm)

Display size: 2.4" x 3.2", 4.0" diagonal (6.1 x 8.1 cm, 10.2 cm diagonal)

Display resolution: 240 x 320 pixels

Waterproof: yes (IPX7)

Antenna: internal

GARMIN

eTrex Legend® H Handheld GPS

One of the most versatile navigators around, the Legend H features a high-sensitivity GPS receiver that holds a signal in the toughest environments. The brightly-colored eTrex Legend H combines all of the intuitive, user-friendly features of the eTrex series with a detailed basemap and 24 megabytes (MB) of internal memory for storing optional maps. With its high-sensitivity, WAAS-enabled GPS receiver, eTrex Legend H locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons. You can count on Legend H to help you find your way when you need it the most.

The Legend's basemap contains lakes, rivers, cities, interstates, national and state highways, railroads and coastlines. Legend also comes preloaded with marine navigation aids. And, with Legend's 24 MB of memory and USB port, you can download even more map detail with data from Garmin's entire line of MapSource® mapping products

Raymarine® A SERIES Chartplotter/Fishfinder with U.S. Coastal Charts

Chartplotter/Fishfinder with VGA display, built-in WAAS compatible GPS, and HD Digital fishfinder. Ships preloaded with coastal charts of the U.S. and Great Lakes.

Three different models

- A50D-5" viewable screen
- A57D-5.7" viewable screen
- A70D-6.4" viewable screen
- IPX6 waterproof construction
- Tilt & swivel bracket with quick release and cable management
- Activate and control a Raymarine SmartPilot X-series autopilot directly from the A series chartplotter screen
- Two NMEA 0183 Input and Output ports

Chartplotter

- Preloaded with ready-to-navigate Navionics U.S. Coastal cartography. Use optional Navionics Gold or Platinum charts.
- High speed chart redraw
- Chart Rotation Modes (Head up, Course up and North Up)
- 1200 Waypoints and 150 routes with unlimited waypoint and route storage using optional CompactFlash memory card
- High sensitivity internal WAAS GPS sensor
- Navionics Gold and Platinum capability
- 3D and satellite photo charts (with optional Platinum Chart Card)
- AIS target tracking (with optional AIS250 module)

WWW.RAYMARINE.COM**

Fishfinder

- Superior fishfinder performance using the Built-in Digital Sounder Module
- 500 Watts RMS Output power
- Raymarine's patented HD Digital™ fishfinder technology
- Dual frequency (50/200 kHz) for excellent inshore and offshore performance
- Hands-free HD Digital™ technology automatically adjust more than 220 sonar parameters per second and virtually eliminates clutter
- HD Digital™ adaptive receiver technology precisely targets fish and bottom structure with amazing clarity
- Transom mount transducer with depth-speed-temperature included. Additional transom, in-hull, trolling motor and thru-hull transducer options available.

SIRIUS Weather & Audio

- SIRIUS Satellite weather and radio with optional SR50
- Graphical Nowrad radar, sea surface temperature, storm tracks, and more!
- SIRIUS Satellite radio capability. Set reminders for favorite songs and artists on over 100 SIRIUS radio channels.

Engine Monitoring

- Connect NMEA 2000 compatible engines with SeaTalk™
- Create customizable pages for engine data, trim tabs, instrument data, and more!

GPS MAP 740S

GPSMAP 740 is a stand-alone touch screen chartplotter that brings a new level of functionality to your vessel. Featuring a brilliant 7-inch display, GPSMAP 740 puts all the information you need right at your fingertips. In addition, GPSMAP 740 accepts radar input and offers full NMEA 2000® connectivity for greater convenience when adding extra sensors.

Input is easy with GPSMAP 740. Whether you're changing course or simply reviewing information in front of you, the intuitive touchscreen interface makes for simple operation.

GPSMAP 740s comes standard with a 1kW-capable sonar transceiver. This powerful sonar can help you define fish targets and underwater structures as far down as 2,000 feet when used with a 1kW transducer. Must order optional transducer separate

Features

- Garmin radar compatible
- Garmin sonar compatible
- Supports DSC (displays position data from DSC capable VHF radio)
- Tide tables
- Supports AIS (tracks target ships' position)
